ELECTION

Sir:

In response to the Restriction Requirement mailed February 14, 2003, the applicants make the following election. The Examiner has required the applicants to elect between Groups I, II and III. The applicants elect group III claims 31-36 drawn to copolymers with traverse. The applicants do not believe that there is an undue burden on the Examiner to search Groups I-III. Claims 31-36 read on Group III.

For Groups I and II, the Examiner is requesting an election of species. The Examiner has not required the applicants to elect a single disclosed species for Group III (see page 3 of the Office Action). However, if the Examiner requires the applicants to elect a single disclosed species, the applicants elect example 10 as the species for examination. Example 10 is found at page 23 of the specification. Example 10 is the copolymerization of 1-thio-4,5,5-trifluoro-4-pentenyl acetate with vinylidene fluoride.
